<p>Projected Coordinate System: Transverse_Mercator Projection: Transverse_Mercator false_easting: 500000.00000000 false_northing: -2000000.00000000 central_meridian: 90.00000000 scale_factor: 0.99960000 latitude_of_origin: 0.00000000 Linear Unit: Meter</p> <p>Geographic Coordinate System: GCS_unnamed ellipse Datum: D_unknown Prime Meridian: Greenwich Angular Unit: Degree</p>	 <p>The map displays the distribution of cool population across the districts of Bangladesh. Districts are colored based on the number of cool population: yellow for 0 and purple for 1-324. The map includes labels for neighboring countries (India, Myanmar, Nepal) and the Bay of Bengal. A legend at the bottom left clarifies the color coding for cool population numbers. A scale bar and north arrow are located in the top right corner.</p>
