<p>Projected Coordinate System: Transverse_Mercator Projection: Transverse_Mercator false_easting: 500000.00000000 false_northing: -2000000.00000000 central_meridian: 90.00000000 scale_factor: 0.99960000 latitude_of_origin: 0.00000000 Linear Unit: Meter</p> <p>Geographic Coordinate System: GCS_unnamed ellipse Datum: D_unknown Prime Meridian: Greenwich Angular Unit: Degree</p>	 <p>The map displays the distribution of Rakhain population across the districts of Bangladesh. The legend indicates four population ranges: 0 (yellow), 1059 (light purple), 1310 (medium purple), and 6058 (dark purple). The highest concentrations are visible in the southern coastal districts, particularly Cox's Bazar and Chittagong. The map also shows neighboring countries: India to the north and west, Myanmar to the east, and the Bay of Bengal to the south. A scale bar and a north arrow are included for reference.</p>
