Description	Image
<p>CRS: GCS_WGS_1984 EPSG 4326</p> <p>Angular Unit: Degree (0.0175) Prime Meridian: Greenwich (0.0) Datum: D_WGS_1984 Spheroid: WGS_1984 Semimajor Axis: 6378137.0 Semiminor Axis: 6356752.3142 Inverse Flattening: 298.2572</p>	 <p>The map displays the geographical distribution of water within unions across Bangladesh. The legend, titled 'Percent of water within union', uses a color scale from light green (0-10%) to dark green (90-100%). Higher percentages are concentrated in the southern coastal regions, particularly around the Dhaka, Chittagong, and Cox's Bazar areas. The map also shows district boundaries and labels for numerous districts, including Panchagarh, Rajshahi, Dhaka, Chittagong, and Cox's Bazar. A scale bar indicates distances up to 160 kilometers, and a north arrow is located in the top right corner.</p>
